

Biopharmaceutical Supply Chain

North East England is one of the most dynamic regions in Europe and we are driving the growth of its flourishing healthcare and life sciences economy. Working closely with the significant academic and industrial strengths in the biopharmaceutical supply chain within the region, we aim to maximise exploitation of the global shift towards these complex molecules.

Here we aim to provide a snapshot of the ground-breaking initiatives, depth of expertise, supportive infrastructure and strong industrial base that makes the region such a vibrant place for anyone involved in these areas.
