

Case studies

Case studies

North East England is one of the most dynamic regions in Europe and Cels is driving the growth of its flourishing healthcare and life sciences sector.

Read through our range of case studies below which highlight some of the important projects and initiatives that Cels has been involved with.

Ambient Kitchen

Cels helped fund the Ambient Kitchen in Newcastle University's Culture Lab which explores the pervasive use of computing technology for assisted living in a domestic setting

North East Proteome Analysis Facility

In 2007, Cels secured Â£4m to develop the North East Proteome Analysis Facility with the aim of growing the UK's biotechnology sector.

Microsoft Ageing Research

Cels has been playing a pivotal role in helping computer giant Microsoft undertake research in North East England

InSTeP Project

The InSTeP project was created to help SME's involved in the development and delivery of new products and services.

Cels at Newcastle

Cels' business incubator suite provides a nurturing environment for early stage businesses.

RegeNer8

Cels' wholly owned subsidiary CBSL was commissioned by the N8 group to develop a business model for a 'Northern Virtual Centre for Translational Regenerative Medicine'.

Case studies

The Healthcare Network

The Cels Healthcare Network was created to support, strengthen and grow the region's healthcare sector and promote collaboration amongst business, academic and public sector organisations.
