

## HealthConnect

HealthConnect is a network for professionals and organisations working in the healthcare and life sciences sector.

HealthConnect is a membership network that provides a range of premier support activities and services which are all designed to drive best practice and help our members grow and succeed.

HealthConnect members are active in assistive technology, health informatics, medical devices, biotechnology and life sciences, health and social care, health and well being as well as their associated supply chains.

Be well connected &ndash; HealthConnect brings together healthcare and life sciences professionals and organisations to stimulate translational research, innovation, collaboration as well as commercial opportunities.

Joining HealthConnect gives you access to a broad range of benefits and services that are aimed at delivering value to help your business continue to increase its performance and competitiveness.

HealthConnect provides a range of premier support activities and services which are all designed to drive best practice and help our members grow and succeed.
