

Ageing and Health

North East England is one of the most dynamic regions in Europe and we are driving the growth of its flourishing healthcare and life sciences economy. Building on regional excellence in Ageing and Health, we support the development, adoption and availability of technology and practice designed to maintain or improve quality of life.

Here we aim to provide a snapshot of the ground-breaking initiatives, depth of expertise, supportive infrastructure and strong industrial base that makes the region such a vibrant place for anyone involved in this kind of work.
