

Companies seeking regional partners

Cels' extensive network of contacts across the North East spans organisations in the public and private sectors, academics, researchers and clinicians. We can put you in touch with these specialists, providing you with a wider scope of partnering opportunities.

Through NEPAF Cels is able to provide access to state-of-the-art equipment and expertise in the field of proteomics to help companies develop new or improved products

HealthConnect, our healthcare network, provides members with the opportunity to meet potential partners, share best practice and discuss ideas. Cels also runs a series of events which provide informal networking opportunities for your organisation.

We can also help you to develop your business to make it more attractive to potential partners. Cels provides access to management advice and business support in whichever area you need it.

Cels also offers access to business consultancy services through our commercial services division CBSL.
